The bow seating area can transform into an XL sunbed, and the aft area can transform into a relaxing king size sun lounge.

### Manufacturers Note

THE MOST SPACIOUS CENTER CONSOLE  
GROUNDBREAKING USE OF DECK SPACE  
PERFECT FOR FAMILY WATER ACTIVITIES

The open day cruiser is divided into three zones, each representing different usability scenarios, from the spacious aft sun lounge expandable through the flip-over pilot backrest, and the three-seat pilot sofa, through to the comfortable bow dining area layout, all with the aim at bringing maximum joy to its passengers.

The bow lounge area can comfortably seat up to 7 people and transforms into an XL 200 x 200 cm sunbed protected by the high backrests.

The helm area provides great seating for 3 people while also forming an oversize chaise in connection with the swim platform. The backrest can transform to create a king size sunbed and also support the captain in a raised steering position for a better view.

Moving around on the Play is a breeze with its walkways & open space. The protective freeboard opens up to the big swim platform that makes it easy to jump in for a swim.

The lightweight construction is fundamental for our boats to achieve superior performance and low consumption of fuel or electricity depending on engine selection. The RAND Play consumes significantly less than traditional boats and will be the environmentally friendly choice within watersport even if choosing a modern gasoline engine. We use materials developed from recycled plastics and bio-based hybrids to optimise the environmental impact and create the best possible solution.

The design is uncompromising, in the way that functionality comes first. The beautiful lines and surfaces, the graceful details and the impressive amounts of space, and the freedom to move around. Whether you will do high-speed sailing in smooth waters, or ride big waves at the ocean, the RAND Play will manoeuvre with a fun and engaging steering while remaining stable and safe.

The sporty Play 24 steering console lures its owners in with the sharp and simplistic automotive-inspired expression, stainless steel steering wheel, and plush seating space with up to two accompanying passengers.

Another remarkable feature of Play 24 is the triple aft sun lounge, which can be expanded into full length by shifting the captain seat backrest forward through the stainless steel hinge functionality. Throw yourself onto the lush upholstery for a relaxing nap or tanning in the sun to the sound of the waves.

A dedication to easy movability the Play 24 layout offers an overwhelming sense of space compared to competing boats in the range, and gives the versatility of usability scenarios to its owners, whether dining in the bow with an unhindered view of the sea, dazing in the rays on the luscious aft sun lounge, or cruising at full speed by the sporty captains steering console.

Play 24 is the most spacious and functionalistic boat in its class. The pioneering centre console offers different usability scenarios and is fully customizable to your needs and preferences.
